

LUCIFER LIGHTING LOOKBOOK

VOL. 4
WINTER
2022-2023

LUCIFER
LIGHTING COMPANY

EDITOR'S NOTE

We are feeling the shift in seasons here in Texas. All the different holidays at this time of year have us thinking about the many things we are appreciative of. Family, of course. As caretakers of a multi-generational family business, we appreciate not only those we are related to by blood, but also those we are related to by choice: our talented, inspiring, and creative colleagues and customers. We wouldn't – couldn't – do what we do without you. This is why we welcome your challenges and try to be responsive to your needs and your dreams.

Our new product development effort is always in direct response to customer feedback. We know how much you appreciate an artisanal look and feel – check out the hand-burnished quality or our new Alumina finishes. We even invented a hidden elbow to give our new Monopoint the full 90 degrees of tilt you didn't think was possible.

We also want to express our extensive gratitude to the San Francisco community of architects and designers for making us feel so welcome when we opened our pop-up shop in Jackson Square. Because of you, we've made the space into a permanent showroom.

We know you'll enjoy the inspiration these pages contain.

GOOP BOND STREET, NY, NY

LIGHTING DESIGNER
Sean O'Connor Lighting

DESIGNER
Commune

PRODUCT
FRAXION®3

THE SHED, NY, NY

LIGHTING DESIGNER
Tillotson Design Associates
