**TRACK**

**TRACK COMPONENTS**

**HORIZONTAL SURFACE AND PENDANT MOUNT**

1.1” tall and .9” wide surface mounted track available in 4’ & 8’ field cuttable lengths with various connectors for continuous track assemblies. Pendant mounted track available in 8’ field cuttable length and adjustable heights with connectors for continuous track assemblies. Dry locations only.

TECHNICAL

CONSTRUCTION
Track & Track Connectors: Extruded aluminum; painted finishes are granulated powder coat.

POWER
Must utilize a panel based current limiter if needed, supplied by others. Available for use with 120V single circuit only. Track powered via live feed connectors or j-box mounting plate connectors. At least one live feed or junction box connector must be selected to provide power to track assembly.

MOUNTING
Track may be mounted to any horizontal surface. Track and Track Components specified separately according to field application conditions. J-box mounting plate connectors provide a minimalist transition from customer supplied 4” Octagon box and accommodates ceiling thicknesses of 0.44” (12mm) to 0.75” (20mm).

LISTING
cTUVus listed to UL1598 standard for Dry locations.

TRACK HEADS
Surface and Pendant Track is compatible with all Lucifer Lighting Track Heads, specified separately.

WARRANTY
Manufacturer’s 1-year warranty guarantees product(s) listed to be free from defects in material and workmanship under normal use and service. Warranty period begins from the date of shipment by Seller. Consult website for full warranty terms and conditions.
**TRACK SURFACE MOUNT**

**TRACK CONNECTORS - LIVE FEED**

A **TCS-CON-LL-(finish)**
Left end, live feed connector can be fed by MC Cable or Romex Wire directly. Connects to a single surface track component.

B **TCS-CON-JL-(finish)**
Left end j-box mounting plate mounts directly to bottom of customer supplied 4” Octagon box. Connects to a single surface track component. Not for use with surface mount j-box.

C **TCS-CON-LLC-(finish)**
Left end live feed connector available for ceiling mount conduit. Includes adaptors for 1/2” and 3/4” EMT conduit and 1/2” flex conduit. Connects to a single surface track component.

D **TCS-CON-LS-(finish)**
Inline, live feed connector can be fed by MC Cable or Romex Wire directly. Allows for the joining of two surface track components.

E **TCS-CON-LC-(finish)**
Corner, live feed connector can be fed by MC Cable or Romex Wire directly. Allows for two surface track components to be joined at a 90° angle.

F **TCS-CON-JC-(finish)**
Corner, j-box mounting plate mounts directly to bottom of customer supplied 4” Octagon box. Allows for the joining of two surface track components at a 90° angle. Not for use with surface mount j-box.

**TRACK - SURFACE**

G **TCS-STR-I(length)-(finish)**
Surface components available in 4’ and 8’ lengths and are field cuttable. Requires connector to supply power.

**TRACK CONNECTOR - JUMPER**

H **TCS-CON-PSC-(finish)**
Joins two straight surface track components to form a longer, continuous piece of track.
As part of its policy of continuous research and product development, the company reserves the right to change or withdraw specifications without prior notice.

DATE OF REV: 072319
PENDANT KIT

A TCP-CON-LL-{length}-{finish}
Pendant track kit available in flexible cable lengths, compatible with 3” and 4” junction boxes. Kit includes live end fitting and mechanical suspension kit available in adjustable 8’ and 16’ heights.

TRACK

B TCP-T-I8-{length}-{finish}
Pendant track available in 8’ length and is field cuttable. Includes mechanical suspension kit available in adjustable 8’ and 16’ heights.

MECHANICAL SUSPENSION KIT

C TCP-M-{length}-{finish}
Mechanical suspension kit available in adjustable 8’ and 16’ heights.

TRACK CONNECTORS

D TCP-CON-PSC-{finish}
Joins two straight track components to form a longer, continuous piece of track.

E TCP-CON-AC-{finish}
Joins track components at a 90° angle to form a longer, continuous piece of track.
