Fraxion Family Lucifer Lighting

The next evolution of the minimalist Fraxion downlight is a new full family of recessed fittings available for a true trimless install or with a micro flange bezel. Proprietary beam optics 13° - 60° utilising reflection, refraction and TIR allow for easy field change outs. Hot-aimable and lockable in tilt and rotation, offering perfect centre beam maintenance to 40° tilt utilising a sliding pivot point. 900lm (8w) - 1400lm (13w). Patents pending.
