## Lucifer Lighting Introduces 3 Series Downlight Family

*Precision-engineered offering for up to 2250lm (35) in a compact package*

SAN ANTONIO, TEXAS, September 27, 2013 – Conceived with special attention paid to efficiency, beam optic quality, and spacing flexibility, Lucifer Lighting has unveiled the 3 Series Family of Downlights which slot between their well-established, long-respected 2" aperture Z Series, and innovative 4.5" aperture Y Series targeted at higher ceilings and commercial applications. Offered for interior and IP64 exterior locations, the new 3 Series includes fixed models with precision tapered apertures to optimize lumen output, dual-axis adjustables (45° tilt/ 361° rotation) that are hot-aimable and lockable from below with advanced aiming mechanics to ensure beam quality throughout the adjustment range, and lensed wallwashers with internal linear optics for superb wallwashing coverage with fewer luminaires.

Numerous LED configurations are offered in 80+ CRI and 95+ CRI, with lumen packages up to 2220LM(35W), in color temperatures of 2700K, 3000K, 3500K and 4000K. Proprietary total internal reflectance (TIR) beam optic systems of 25°, 40° and 60° allow for easy beam angle changes in the field and accept up to 2 effects devices. The 3 Series is built around a versatile 3.5" (89mm) die-cast aperture with 5.13" (130mm) trim plate available in granulated powder coats, treated metals, and plated finishes. (IP64 trim plates are 5.56" (141mm).) Fixtures accommodate flange overlay or zero-sightline flush installations.

DLRA3 – Adjustable

DLRWW3W – Wallwash IP64

### **About Lucifer Lighting Company**

For more than 30 years, Lucifer Lighting has created precision engineered, original lighting solutions with a focus on leading edge technology and aesthetic appeal. Made in the USA, Lucifer Lighting fixtures and systems are favored by architects and designers worldwide. The company is regularly recognized for distinction, and its robust, appealing fixtures are found in installations for five star hotels, distinguished institutions and cultural venues, high end retailers, luxury residences, corporate headquarters and more. Installations of Lucifer Lighting may be found in diverse venues ranging from Goldman Sachs in New York to the Penguins' Stadium in Pittsburg, from Polo Ralph Lauren in Istanbul to Louis Vuitton Shanghai, from the Armani Restaurant at the Burj Khalifa in Dubai to all the celebrity chef restaurants in Singapore's Marina Bay Sands, from Las Vegas City Center to the Abu Dhabi Financial Center, from Windsor Castle to the White house, not to mention countless private residences.
